Influence

Local ► regional ► national

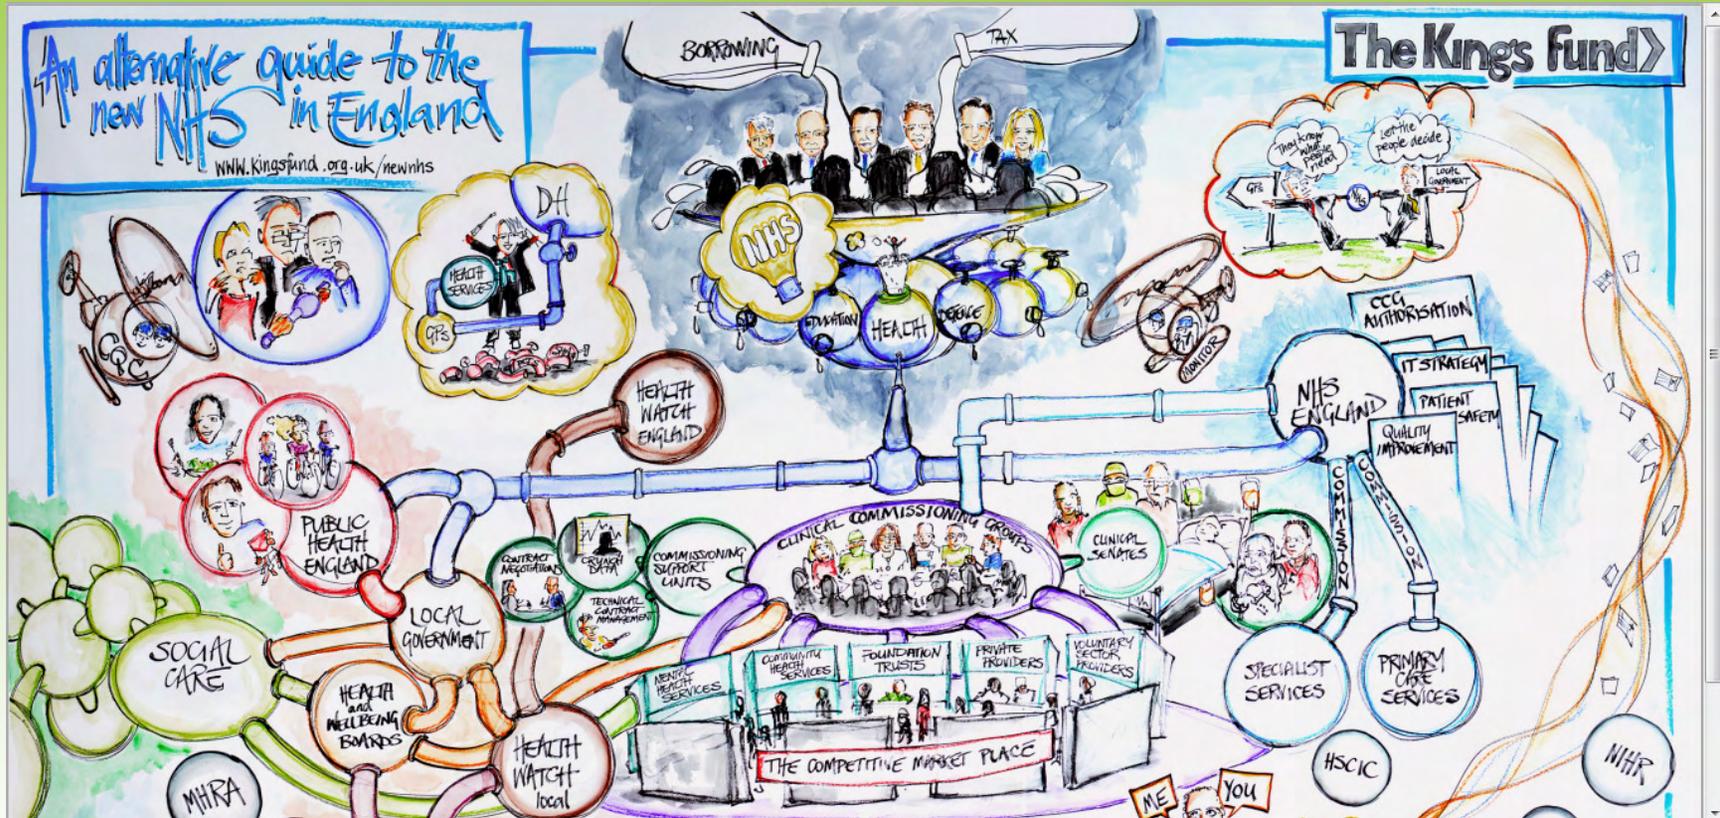

Connect

Local ► local

Workshop outcomes

- Improved understanding on changes in health commissioning
- Understanding the “big issues” that are behind the changes
- Improve working with local commissioners (e.g. PH and CCG)- how do they decide commissioning priorities
- Learning from other areas

Providers

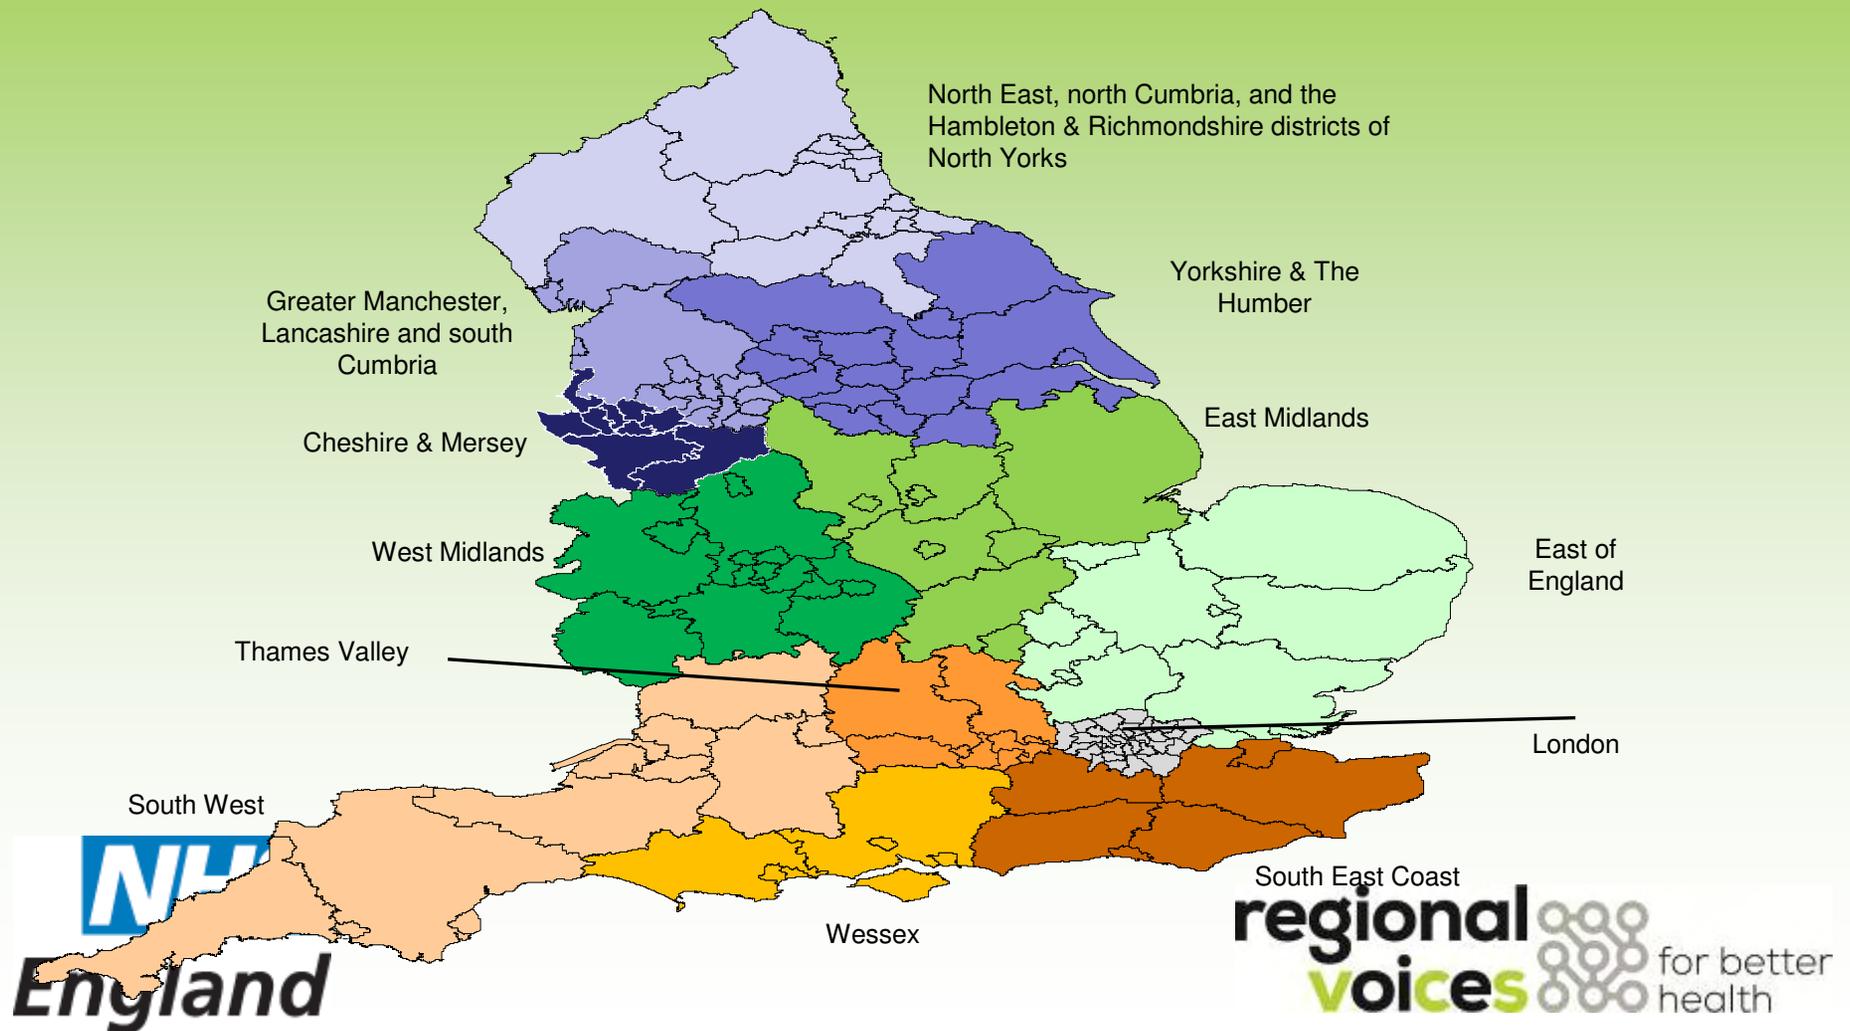

Midlands and East of England

Midlands and East of England	Popn (1,000s)	CCGs	HWBs
Arden, Herefordshire and Worcestershire	1575	7	4
Birmingham and the Black Country	2350	8	6
Derbyshire and Nottinghamshire	1933	10	4
East Anglia	2294	8	4
Essex	1699	7	3
Hertfordshire and the South Midlands	2628	7	6
Leicestershire and Lincolnshire	1674	7	4
Shropshire and Staffordshire	1496	8	4
Total	15649	62	35

Clinical Senates and networks

NHS England commissioners

- Specialised services, health and justice and services for armed forces and families
- Primary Care
- All area teams responsible for Primary Care

- What it means for the voluntary sector
- What it means for your organisation
- What others are doing
- What would help
- Other resources

Opportunities for the VCS

- Patient and public engagement is central
- New commissioning bodies
- Assets of the sector
- Integration and inequality

Key issues for VCS

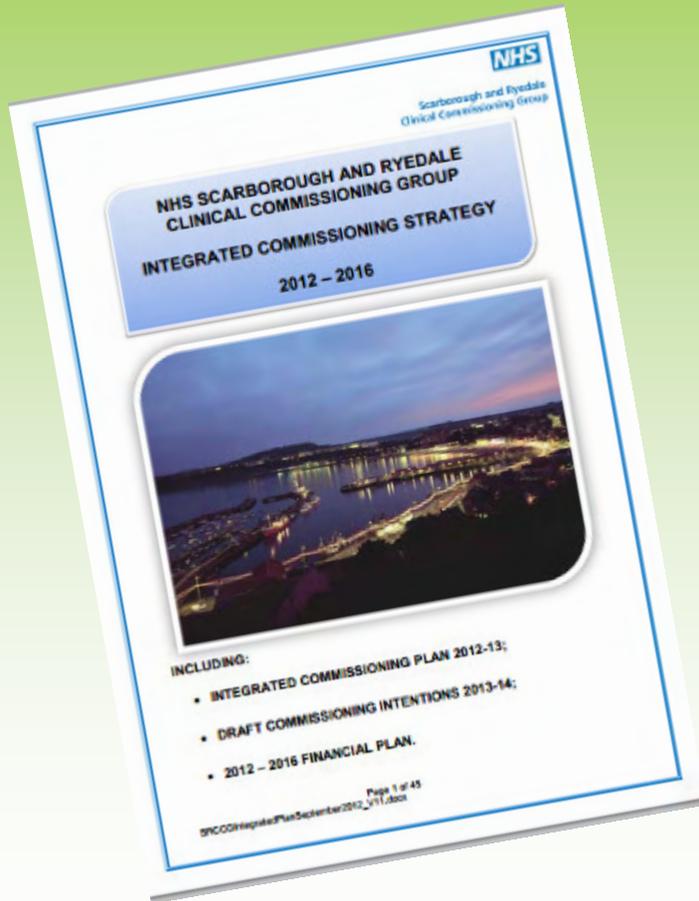

- Understanding new system
- Building relations with key players
- Influencing strategy
- Staying afloat (cuts, commissioning & competition)
- Transformation/decommissioning/reconfiguration

Talk to your neighbour

What's your biggest issue in the new commissioning landscape?

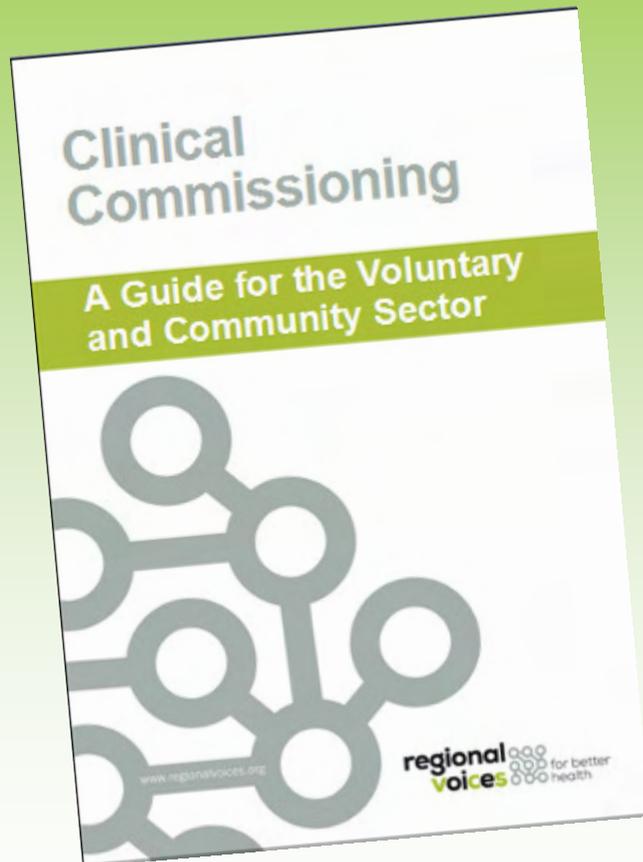

Who do you want to influence the most and why?

What are CCGs going to do?

- Each area different
- Read the strategies
- Look on websites
- Make links with leads
- Get involved with patient participation groups

Clinical Commissioning

- Who else is engaging? Talk to your CVS
- Who do you want to influence? Do the research
- Develop succinct and evidenced narrative about your work. Quantify need and savings.
- Could develop a marketplace event- in partnership with CCG

What's driving public health?

- Outcomes framework

The screenshot shows the 'Public Health Outcomes Framework Data Tool' interface. At the top, it features the Public Health England logo and a notice: 'From 1 April 2013 we are part of Public Health England. We are still maintaining this website until further notice.' The main heading is 'Public Health Outcomes Framework Data Tool'. Below this is a navigation bar with 'Home', 'Contact us', 'Further information', and 'FAQs', along with a search box for 'Indicator keywords'. The main content area is divided into five categories: 'Overarching indicators', 'Wider determinants of health', 'Health improvement', 'Health protection', and 'Healthcare and premature mortality'. Under 'Wider determinants of health', there are sub-navigation options: 'Overview', 'Map', 'Trends', 'Compare areas', 'Area profiles', 'Definitions', 'Inequalities', and 'Download'. Below these are filters for 'Area type' (County/UA), 'Area' (Leicestershire), 'Areas grouped by' (Region), and 'Region' (East Midlands).

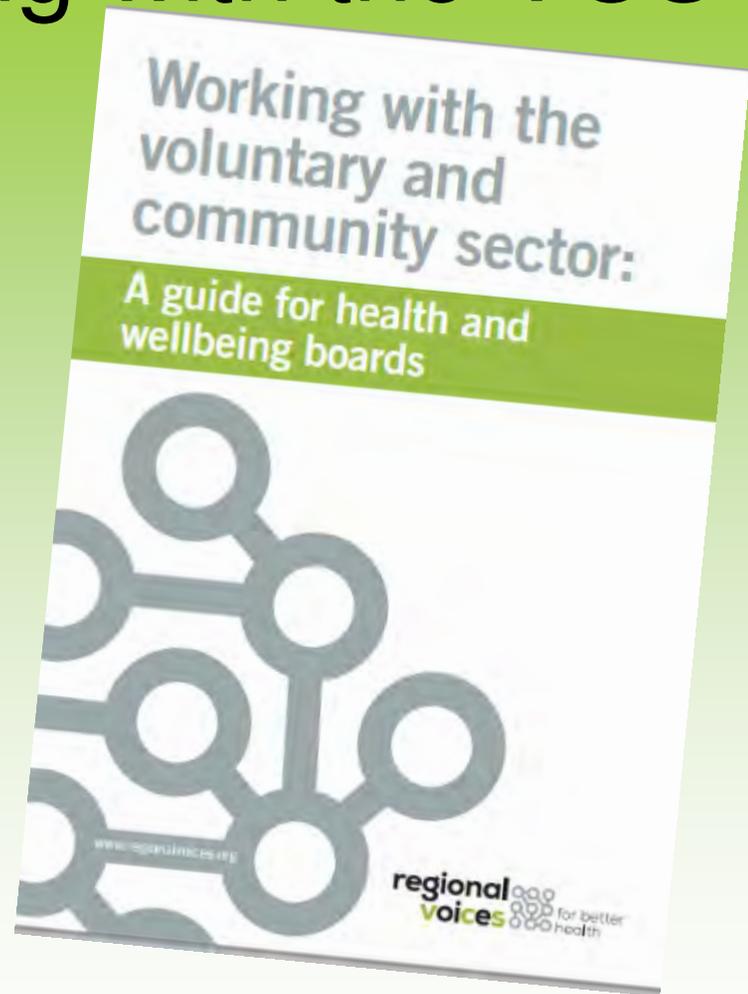

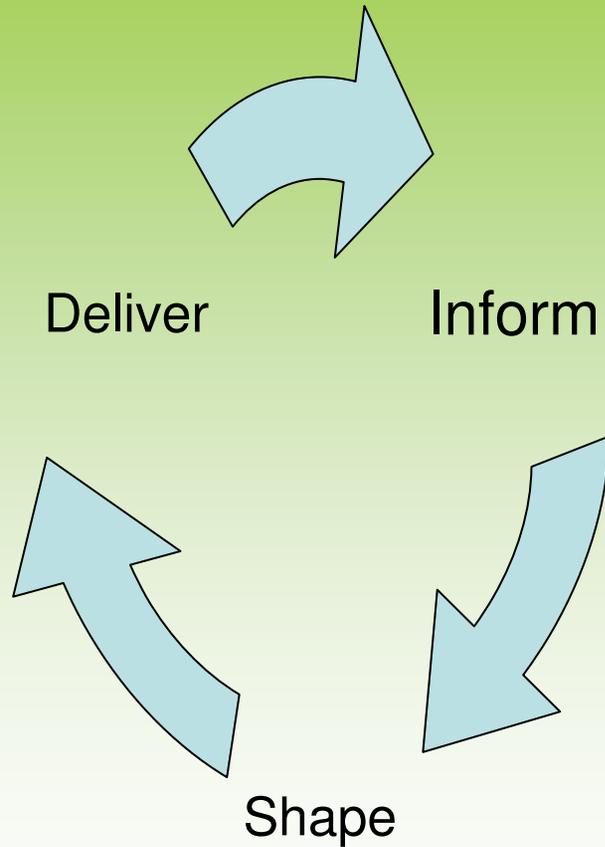

- Joint strategic needs assessments

Health and wellbeing boards

Join up the system, aims to:

- Improve outcomes in NHS/PH/SC
- Promote integration
- Increase people's influence
- Reduce duplication
- Increase efficiency and quality of services

The value of working with the VCS

How VCS can build influence

- Working together- not overwhelming CCGs/DsPH separately
- Use your evidence and networks- feed into the JSNA+JHWS- link to representatives on health and wellbeing board- VCS and Healthwatch
- Tailor “offer” to CCG/HWB/DPH needs

Talk to your neighbours

Who do you want to influence the most and why?

How might you approach them differently?

Homework!

- 1. How will you get their attention?**
- 2. How will you put your message across?**
- 3. How will they respond?**
- 4. How will you respond**

What would help?

- Messages to HWB, CCG, DPH?
- Messages to DH, PHE, NHS England?
- Resources/briefings?
- Events/training?
- Networking?
